WORK EXPERIENCE

React.js Developer
Mastek Limited

03/2021 - Present,   *Noida*

LifeLabs
- Implemented responsive and interactive user interfaces using React.js, resulting in improved user experiences and customer engagement.
- Collaborated with cross-functional teams to design and develop elegant frontend solutions for various pages.
- Enhanced accessibility by implementing multi-language support for boosting customer reach.
- Worked closely with the UI/UX team to ensure seamless integration of designs.
- Resolved critical frontend and backend issues and optimized application performance for a smoother user experience.

Zimvie
- Crafted reusable React components to create intuitive and visually appealing user interfaces on PDP, PLP, Review, and Order Details pages.
- Collaborated with designers to implement responsive designs and pixel-perfect UI elements.
- Implemented frontend logic to handle user interactions and data presentation effectively.
- Collaborated with the backend team to consume APIs and ensure smooth data flow between frontend and backend.
- Conducted code reviews and maintained coding standards to ensure high-quality codebase.
